

MOHAMED ASMI

FULL STACK DEVELOPER - PHP / LARAVEL / REACT

+94 78 923 8808 | shamsudeenasmi96@gmail.com | linkedin.com/in/mohamed-asmi-9133b4201
47/A Spill Road, Puttalam, Sri Lanka

PROFESSIONAL SUMMARY

Full Stack Developer / Software Engineer with 6+ years of software development experience building web, backend, desktop and mobile systems. Strong experience with PHP, Laravel, REST API development, JavaScript/TypeScript, React, relational databases and production deployments. Experienced in authentication, business workflows, database design, API integration, debugging, performance optimization, Linux/VPS environments and CI/CD.

EXPERIENCE

Software Engineer
Imara Software Solution
2020 - Present | Sri Lanka

- Develop and maintain Laravel/PHP backend services, REST APIs, authentication and business application workflows.
- Build and support web and client-facing application features using JavaScript/TypeScript, React and API-driven architectures.
- Design and maintain relational database operations, background processes and synchronization workflows for business systems.
- Optimized API queries, resulting in 30% faster data retrieval and improved application responsiveness.
- Manage Linux/VPS deployments, scheduled processes, debugging, production support and CI/CD workflows.

Software Developer
Ecoz Labs
2019 - 2020

- Developed and maintained web application features with supporting backend APIs, integrations and database operations.
- Worked on API integrations, debugging, testing, deployment support and iterative feature delivery.
- Maintained client-facing applications and resolved application and database issues.

Junior Software Developer
Adsfly
2017 - 2019

- Implemented web application features, backend logic, API workflows and database operations.
- Worked with Git, bug fixing, testing and deployment workflows while strengthening software engineering practices.

SELECTED PROJECTS

POSMate - POS & Business Management Platform

Business management platform with Desktop/Electron clients and a Laravel backend. Includes sales, purchases, returns/refunds, stock and product variants, barcode workflows, customer/supplier management, due payments, reporting, receipt printing and offline synchronization.

Frappe / ERPNext Education + Mobile App

Education management solution covering students, instructors, admissions, fee plans, scheduling, attendance, examinations, results and student-facing services through ERPNext/Frappe and a companion mobile application.

AI-Powered 360 Virtual Tour System for Real Estate

Individual academic project built with Laravel, focused on immersive real-estate tour experiences, authentication, role-based access, responsive UI and extensible tour-management functionality.

FULL STACK DEVELOPMENT CONTRIBUTIONS

- Developed and maintained Laravel/PHP backend features, business logic, REST APIs and database-driven workflows.
- Built and supported responsive web interfaces using JavaScript/TypeScript, React and reusable UI patterns.
- Integrated REST APIs with authentication, JSON handling, validation, error handling and client-side workflows.
- Supported testing, debugging, deployment, performance improvements and production issue resolution across frontend and backend systems.

KEY STRENGTHS

PHP / Laravel Development

Backend application development, REST APIs, authentication, business logic and Laravel-based services.

React / JavaScript / TypeScript

Frontend development with reusable components, responsive interfaces and API-driven workflows.

API & Database Integration

REST APIs, JSON, authentication and relational databases including MySQL, PostgreSQL, MariaDB and SQLite.

Deployment & Reliability

Linux/VPS deployment, Git, CI/CD, debugging, API optimization and production issue resolution.

TECHNICAL SKILLS

Backend

PHP, Laravel, Node.js

Frontend

React, JavaScript, TypeScript, Electron

API Development

REST APIs, authentication, JSON, validation, error handling

Databases

MySQL, PostgreSQL, MariaDB, SQLite

Web UI

Reusable components, responsive UI, forms, validation

Architecture / Workflows

Business logic, API integration, background jobs, sync workflows

Mobile

React Native, Flutter, Dart

Cloud / DevOps

AWS, SQS, Linux, VPS, GitHub Actions, CI/CD

Version Control

Git, GitHub

Package Tools

Composer, NPM, Yarn

EDUCATION

BSc (Hons) Computing Science
Software Engineering (Top Up)
Kingston University, UK | 2025

Higher National Diploma
Information Technology (HNDIT)
2017 - 2019

TOOLS & PLATFORMS

PHP / Laravel / Composer

Backend application and dependency management

React / JavaScript / TypeScript

Frontend development and reusable UI workflows

NPM / Yarn

JavaScript dependency and build tooling

Git / GitHub / GitHub Actions

Version control, collaboration and CI/CD workflows

Linux / VPS / Server Deployment

Production setup, migration and troubleshooting

AWS / SQS / Background Jobs

Queue-based processing and scheduled workflows

CORE EXPERTISE

PHP / Laravel Backend Development

React / JavaScript / TypeScript

REST API Design & Integration

Relational Database Development

Authentication & Business Workflows

Deployment, Debugging & Performance

LANGUAGES

Tamil

Native

English

Professional
